

ANNOUNCEMENT:

Residency Training Programme in Poultry Veterinary Science (ECPVS) at Ghent University

The Faculty of Veterinary Medicine at Ghent University offers a position for a resident in Poultry Veterinary Science (Supervisor: prof. dr. Gunther Antonissen, Dipl. ECPVS)

Starting January 1, 2023

Prerequisites:

- Only applicants who are a veterinary graduate of an EAEVE-approved veterinary school and are licensed or eligible to practice veterinary medicine in Belgium can be accepted for the programme.
- You have completed a one-year rotating internship, or equivalent clinical experience.
- Excellent communication skills and proficient in English. Knowledge of Dutch at the beginning of the residency is an advantage for proper communication with farmers, though not essential.
- Candidates are expected to function well in a team.

Program description:

The residency position is a 3 years programme designed to provide acquire an in-depth knowledge of poultry medicine and related disciplines. The ECPVS residency programme will aim at three major objectives:

- To promote aptitude and proficiency in all aspects of the practice in poultry medicine, at the flock level.
- To instruct the Resident in the science and practice of poultry veterinary medicine, including related disciplines (i.e. microbiology, immunology, epidemiology, nutrition, pharmacology, etc...).
- To provide the Resident with the opportunity to pursue career goals in teaching, research, clinical service, and/or specialist practice.

Applications:

Applications are electronic and should be mailed to gunther.antonissen@ugent.be by December 9, 2022. The mail should contain the following attachments:

- a letter with the motivation for participation to the ECPVS residency programme
- a curriculum vitae
- a proof of diploma and completed 1 year internship or clinical training
- the name and coordinates of 2 persons of reference.
